

New Source Review newspaper advertisements for construction permit applications, April 29, 2004. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: April 27, April 28, or April 29, 2004. Public notices are generally published every two weeks. The previous publication of public notices was April 13 – 15, 2004.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Titan Construction Materials, LLC with a mailing address of 210 Caney Branch Road, Rockford, TN 37853. They seek to obtain an air contaminant permit (Division identification number: 05-0125-01/56793) for a Rock Crushing Operation located at 412 Endsley Quarry Road, Friendsville, TN 37737. This existing operation consists of crushers, screens, conveyors, and crushed rock stockpiles. Wet suppression is used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. K. McLain is the assigned Division person.

For the Blount County "Maryville Daily Times"--published once on or before Thursday, April 29, 2004.

The applicant is R & D Finishing with a mailing address of 110 Ed Davis Road, Elizabethton, TN 37643. They seek to obtain an air contaminant permit (Division identification number: 10-0093-01/57232) for construction of an Electroplating Operation at 771 Tony Fuller Ext., Bemberg Complex, Elizabethton, TN 37643. This proposed operation would consist of electroplating baths and associated equipment used in the decorative electroplating of metal parts. A chemical fume suppressant would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. K. McLain is the assigned Division person.

For the Carter County "Elizabethton Star"--published once on or before Thursday, April 29, 2004.

The applicant is Vulcan Construction Materials, L.P. with a mailing address of P.O. Box 7, Knoxville, TN 37901. They seek to obtain an air contaminant permit (Division identification number: 36-0013-05/57080) to construct a Diesel Generator at 12475 Hwy. 64E, Savannah, TN 38372. This proposed operation would consist

of a large stationary diesel engine used to drive a generator that would supply power for the rock quarry operation. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. R. Benjamin is the assigned Division person.

For the Hardin County "Courier"--published once on or before Thursday, April 29, 2004.

The applicant is Jimmy Phipps with a mailing address of 672 Modock Road, Trade, TN 37601. They seek to obtain an air contaminant permit (Division identification number: 46-0038-01/57176) for construction of a Portable Concrete Batch Plant at 11888 Hwy 4215, Trade, TN 37691. This proposed operation would consist of storage bins and silos, and associated equipment used in making concrete. A baghouse would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. K. McLain is the assigned Division person.

For the Johnson County "Tomahawk"--published once on or before Thursday, April 29, 2004.

The applicant is Ripley Power and Light Company with a mailing address of 439 North Main Street, Nashville, TN 38063. They seek to obtain an air contaminant permit (Division identification number: 49-0087-01/57187) for construction of a Generator Operation at 150 South Main Street, Ripley, TN 38063. This proposed operation would consist of four (4) diesel-fired generators used to provide back-up and emergency power to Tennessee Electroplating. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. G. Latif is the assigned Division person.

For the "Lauderdale County Enterprise"--published once on or before Thursday, April 29, 2004.

The applicant is Childress Concrete Company with a mailing address of 704 Main Avenue South, Fayetteville, TN 37334. They seek to obtain an air contaminant permit (Division identification number: 52-0029-01/57202) for modification of a Concrete Batch Plant located at 704 Main Avenue South, Fayetteville, TN 37334. The proposed modification is to increase the annual production rate. There would be no physical construction. Regulated air contaminants emitted by this source would increase. Ms. G. Latif is the assigned Division person.

For the Lincoln County "Elk Valley Times"--published once on or before Thursday, April 29, 2004.

The applicant is Southern Carton Co., Inc. with a mailing address of P.O. Box 1578, Lewisburg, TN 37091. They seek to obtain an air contaminant permit (Division identification number: 59-0091-01/57237) for modification of a Scrap Collection System at 1340 Higgs Road, Lewisburg, TN 37091. This existing operation consists of a cyclone used to remove corrugated scrap from production machinery for transfer to a baler. The proposed modification is to increase the amount of material collected by the system. There would be no physical construction. Regulated air contaminants emitted by this source would increase. Ms. G. Latif is the assigned Division person.

For the Marshall County "Lewisburg Tribune"--published once on or before Thursday, April 29, 2004.

The applicant is Trader Publishing Company with a mailing address of 971 Greenlick, Columbia, TN 38401. They seek to obtain an air contaminant permit (Division identification number: 60-0190-01/57215) for modification of a Web Offset Lithographic Printing Press located at the same address. This existing operation consists of one (1) 22-color nonheatset web press and one (1) 9-color heatset web press. The proposed modifications are to replace two (2) existing mono-units on the 22-color nonheatset web press with four (4) new units to make it a 24-color nonheatset web press, and to add a new 8-color heatset web printing press with two (2) dryers (1.45 MMBtu/hr each). A thermal oxidizer would be used to control the volatile organic compound (VOC) emissions from the two dryers. There would be physical construction. Regulated air contaminants emitted by this source would increase. Ms. G. Latif is the assigned Division person.

For the Maury County "Daily Herald"--published once on or before Thursday, April 29, 2004.

The applicant is Aeroflex USA, Inc. with a mailing address of 282 Industrial Park Drive, Sweetwater, TN 37874. They seek to obtain an air contaminant permit (Division identification number: 62-0121-01/56921) for construction of a Foam Rubber Extrusion and Curing Operation at the same address. This proposed operation would consist of extruders, curing ovens, and associated equipment used to cure foam rubber. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. K. McLain is the assigned Division person.

For the "Monroe County Advocate"--published once on or before Thursday, April 29, 2004.

The applicant is C & F Meat Company, Inc. with a mailing address of 5247 Murfreesboro Road, College Grove, TN 37046-9177. They seek to obtain an air contaminant permit (Division identification number: 94-0274-01/57194) to construct an Incinerator at the same address. This proposed operation would consist of one fuel oil-fired incinerator used to dispose of animal carcasses. An afterburner would be used for pollution control. There would be physical construction. Regulated air pollutants would be emitted by this source. Mr. S. Kusumanchi is the assigned Division person.

For the Williamson County "Review Appeal"--published once on or before Thursday, April 29, 2004.

The applicant is Sellars Funeral Home with a mailing address of 313 West Baddour Parkway, Lebanon, TN 37087. They seek to obtain an air contaminant permit (Division identification number: 95-0276-01/57188) to construct a Human Crematory at the same address. This proposed operation would consist of one natural gas-fired incinerator. An afterburner would be used for pollution control. There would be physical construction. Regulated air pollutants would be emitted by this source. Mr. S. Kusumanchi is the assigned Division person.

For the Wilson County "Lebanon Democrat"--published once on or before Thursday, April 29, 2004.
